Objective

Innovative and detail-oriented Full Stack Developer with 2 years of experience in developing and deploying responsive, user-centric web applications. Proficient in JavaScript, React, Laravel and database management. Adept at both frontend and backend development with a keen focus on optimizing application performance, enhancing user experiences, and integrating third-party APIs. Proven ability to work collaboratively in agile environments, contributing to the design and implementation of scalable web applications.

Technical Skills

Frontend: JavaScript (ES6+), React.js, Next.js, HTML5, CSS3, TypeScript, Zustand, Tailwind CSS, Bootstrap

Backend: PHP, Laravel, RESTful APIs, Firebase

Database: MongoDB, MySQL, Firebase Firestore , SQLite

Testing: Jest, Postman, Vitest

Tools & Platforms: Git, GitHub, AWS, Vercel, Netlify

Additional: Agile Methodologies, Unit Testing, Responsive Design, Cross-Browser Compatibility

PROFESSIONAL EXPERIENCE

Front-end Instructor and Projects Manager, WIST Academy, Yemen (2024/2/12 – Present)

- Prepared and delivered comprehensive training programs in front-end development, including HTML, CSS, JavaScript, TypeScript, React.js, and unit testing with Jest.

- Managed student projects using Agile Scrum methodology, ensuring timely and high-quality project delivery.

- Assisted in the development of training materials and presentations.

Freelancer - Website Developing, Kinona Marketing agency, Saudi Aribia, (2023/4/3– 2023/5/7)

Link - https://www.kinona.sa/

- Collaborated intensively with the client's in-house team over one month to design, develop, and enhance their website. Contributed to brainstorming sessions and actively engaged in the creation of new features and ideas to improve the website's functionality and aesthetics.

- Conducted rigorous testing and quality assurance to identify and rectify any bugs or issues in the website's code. Ensured a bug-free and error-free user experience.

- Maintained open and transparent communication with the client's team, providing regular updates on project progress and addressing any concerns or queries promptly.

Full Stack Developer (Intern) Temmam Light , Yemen, Sana'a, (2023/5/3– 2023/8/7)

- Developed user-friendly, responsive web interfaces for an analytics dashboard using Vue.js and TypeScript, achieving a 98% customer satisfaction rating.

- Designed and implemented RESTful APIs using PHP Laravel for handling dynamic data with complex filtering and search capabilities, decreasing data retrieval time by 40%.

Projects

Movies Database Web App ([GitHub Link](#))
Tech Stack: React.js, Next.js, Firebase, TMDb API, Tailwind CSS

- Created a movie discovery platform using TMDb API that allows users to browse, search, and filter movies and TV shows.
- Integrated Firebase for user authentication and database management, enabling users to save their favorite movies and manage watchlists.
- Implemented multi-language support using next-intl for a global audience, improving accessibility and user retention.

Social Media Application (Twitter Clone) ([GitHub Link](#))
Tech Stack: Next JS, Node.js, MongoDB, Next Auth, JWT

- Implemented an activity feed and notifications, increasing engagement by 25%.
- Configured user authentication and authorization using JWT and bcrypt for secure account management.

FinBiz – Front-End Web Landing Page Saas (GitHub Link)
Tech Stack: React, Tailwind CSS, HTML, Chart.js, Figma

- Developed a front-end web application based on a Figma UI/UX design for a finance-related business dashboard.
- Utilized React for dynamic UI components and Tailwind CSS for styling, ensuring a clean and responsive design.
- Integrated Chart.js to display interactive financial data visualizations and performance metrics. Deployed the project to GitHub and actively maintained it for demonstration purposes.

Job Posting Website (GitHub Link)
Tech Stack: Laravel, Tailwind CSS, Laravel Blade Components, SQLite

- Developed a comprehensive job posting platform where users can register, log in, and post jobs as employers, offering a seamless interface for managing job listings.
- Implemented features allowing jobs to be tagged into specific categories, enabling organized browsing and tailored job searches.
- Added options for both featured and standard job listings, allowing employers to highlight specific job posts, increasing visibility and user engagement.
- Configured authentication and authorization functionalities to ensure secure access, leveraging Laravel's built-in auth system.
- Utilized Tailwind CSS for responsive styling and Laravel Blade Components to create a modular, reusable, and maintainable front-end structure, enhancing development efficiency and code readability.

Sushiman - Japanese Food Website (GitHub Link)
Tech Stack: HTML, CSS, AOS (Animate on Scroll)

- Designed a responsive website for a Japanese food restaurant, inspired by traditional Japanese aesthetics and minimalism, providing a clean and engaging user interface.
- Created a fully responsive layout using only HTML and CSS, ensuring optimal display and usability across all screen sizes, from mobile to desktop.
- Integrated the AOS library for smooth scroll animations, adding a dynamic and interactive touch to enhance user experience.
- Developed an easy-to-navigate menu section with visually appealing layouts for showcasing food items, promoting a seamless browsing experience for customers.

EDUCATION

Bachelor in Computer Science - Software Engineering

University of Science and Technology -Yemen-Sana'a

[September, 2020] - [May, 2024]

English Language (FUN C to GRAD C-Final)

Exceed Language Center -Yemen-Sana'a

[May, 2017] - [December, 2019]

Certifications

Full Stack Bootcamp with (MOSNAD Platform) for 4 months

HTML – CSS – JS – REACT – NEXT JS – PHP – LARAVEL

Google Project Management Course 6 Months

Coursera – Google Professional Certificate
Master Project management Using Agile (scrum)
